

San Salvador, Bahamas

February 18 - 25, 2012

Join us for a winter get-away trip to the Bahamas and some great diving in San Salvador. You'll leave the Erie snow to arrive in the tropics in time for Happy Hour at the resort! Diving will be from the resort's boats on reefs teeming with fish, critters and even the occasional friendly shark! We'll be staying at the Riding Rock Resort with plenty of boat diving and all of our meals provided in the package. Most of the 50+ dive sites are located on the islands lee side, so rough seas are rarely encountered.

Shark lovers will be pleased to hear that San Salvador is home to many shark species, the Scalloped Hammerheads being a favorite with our divers. We had so much fun last year that we have decided to return, the visibility was crystal clear with plentiful marine life on the reefs. Visit the resort website at www.ridingrock.com to take a look at the resort and all it offers.
