

Costa Rica

Jan 27 - Feb 5, 2024

Trip Summary

Join Diver's World for an all-inclusive excursion to Costa Rica. We are timing this trip to coincide with the manta and humpback whale migrations off the Pacific coast.

Costa Rica is fast becoming a hot spot scuba diving destination, particularly along its Pacific shores. From enticing shark encounters to run-ins with giant Manta Rays, Costa Rica's volcanic pinnacles are filled with pelagic life.

Divers frequently encounter sea turtles, stingrays, manta rays, moray eels, barracuda, tuna, and snapper. Schooling fish can be found on every dive site, as well as small critters like sea horses, frogfish, and harlequin clown shrimp. Sharks and dolphins are seen regularly, and humpback and pilot whales migrate twice seasonally.

Departs January 27, 2024

Returns February 5, 2024
